Promises Economy Boom

Nikita Restates Intention To Sign E. German Treaty

MOSCOW (AP) — Premier Khrushchev reiterated today that he intends to sign a peace treaty with East Germany in the "near future." At the same time he promised an early boom in Soviet economy.

Khrushchev termed the German peace treaty issue one of the

"most difficult problems of our day" and linked it with disarmament in a two-point slate of action.

He spoke over a nationwide radio hookup from Alma Ata, capital of the virgin lands Republic of Kazakhstan which is observing its 40th anniversary.

Last Wednesday he told a Kremlin rally Russia will sign a separate peace treaty with East Germany at the end of the year, if the West continues refusal to sign one with both Germans.

The Soviet leader took note of food shortages troubling his nation, then told of sweeping plans to boost production.

"A tempestuous growth of all branches of the national economy is envisaged," he disclosed to an applauding, capacity crowd in the Alma Ata opera hall. "The light and food industries will develop rapidly, side by side with heavy industry."

The massive development, he said, would be outlined in drafts of a new program and new rules of the Soviet Communist party to be published soon. Horse meat and American corn might figure in new food production plans, he added.

He emphasized rapid economic development was, to his thinking, the Soviet Union's most formidable weapon for winning capitalist countries over to communism.

"This is why the draft program devotes so much attention to the economic development of the Soviet Union, to ensure its unquestionable superiority over all leading capitalist powers," he added.

Khrushchev made only brief references to foreign policy matters. The German and disarmament problems, he said, must be settled "in order to put an end to the remnants of the Second World War and to settle on this basis the question of Berlin."

"The position of the Soviet government on these questions was set forth in my recent radio and television speech and in a recent speech at the Kremlin," he said.

"I do not believe there is a need to repeat this position here. I shall only say that to our mind the position is a firm, well substantiated position and we intend to stick firmly to this position."

Khrushchev brought up the question of the Soviet Union's perennial meat shortage problem this way.

"Now I would like to talk about the breeding of horses for meat, because the meat is very tasty."

With a chuckle he added: "I have become a Kazhak. Yesterday I was entertained by Kazhaks and they gave me this meat."

"This meat is very fat. Perhaps because of my age and constitution I like this fat. This meat is very nourishing and has many calories and is very cheap."

Khrushchev also put in a plug for 60-day hybrid corn grown in the United States.

"I had a talk recently," he said "with the United States of America's secretary of state, Mr. Rusk. He told me that the American agronomists have created a variety of corn which reaches maturity in a period of 60 days."

"If the American agronomists have really achieved such a success we can only congratulate them on this."

"If it is profitable for the United States of America to have such varieties of corn, it is certainly profitable for us to have such varieties in our country."

"Our agronomists," he said "must work to develop such a variety."

Khrushchev repeated his claim that the Soviet Union will overtake the United States in per capita production.

State Sets '63 Date For Overpass Here

A more definite time for beginning construction and for project costs of the proposed W. State St. overpass were revealed Friday by the Ohio Department of Highways in a "Project Form" the state forwarded to Mayor Dean Cranmer.

The form, which is required

with application for a \$45,000 loan from the Housing & Home Finance Agency for project engineering and planning, reveals the job has been established in the state's 1963 fiscal year plans, which means construction could begin any time after July 1, 1962.

Schuller Hits Mayor's Tactics

Council Head Also Criticizes Paper

President of City Council Michael Schuller today criticized Mayor Dean Cranmer for attempting to "go it alone" on the W. State St. overpass project and he charged that The Salem News had not printed a full report of the proceedings of several Council meetings.

"We are expected to pass judgment Tuesday night on an ordinance authorizing the state highway department to proceed with the project but up to this point the mayor has kept all of the papers in his coat pocket. How can Council be expected to cooperate in a project it knows little about when the mayor keeps all of the information to himself?"

Mr. Schuller said he didn't know whether Council will act on the ordinance Tuesday night when Council convenes in special session.

The president of Council also declared that the matter of financing the grade separation project, especially from the city's standpoint, has never been brought out clearly in newspaper reports.

He recalled Council's April 4 meeting and quoted from the official minutes which read: "Mayor Cranmer reported on the progress of the overpass and requested two resolutions be considered this evening. Mr. Abrams asked how he expected to raise the \$50,000 in question (the city's share) for the overpass. Mr. Schuller said he didn't know."

U.S. Group Hits Castro on Swap Collapse

Committee Calls Cuban's Latest Proposal Ludicrous

DETROIT (AP)—The proposed swap of American tractors for Cuban invasion prisoners is dead, and the Tractors for Freedom Committee accused Cuba's Fidel Castro of killing the deal.

The committee in a bluntly worded statement Friday night said it was folding up because Castro's demand for \$28 million in cash, credit or tractors could only be interpreted as a move "calculated to destroy the possibility of agreement." The committee said Castro's proposal for a delegation of prisoners to negotiate the terms was ludicrous.

Blamed For Collapse

The Cuban prime minister's rejection of the committee's terms to exchange 500 farm tractors worth about \$3 million for 1,200 captured rebels was blamed by the committee for the collapse of the month-long negotiations. Castro had called the committee's conditions ridiculous.

The private citizens' group, headed by Walter P. Reuther, Mrs. Eleanor Roosevelt and Dr. Milton S. Eisenhower, said it is disbanding and plans to return between 60,000 and 70,000 letters it received from its appeal for funds to pay for the tractors. The letters never were opened, so there's no way of determining how much money was sent in to PO Box Freedom here.

Tractors for Freedom Inc. was organized at the suggestion of President Kennedy. But Kennedy made it clear the U.S. government would play no part in any exchange.

The committee dismissed Castro's proposal of Friday in these words:

Calls Proposal Ludicrous

"The latest proposal by Dr. Castro that a delegation of prisoners whom he holds captive under the threat of penalty of death or long imprisonment can negotiate the terms of their own release is ludicrous."

"It is further evidence of his brutality in cynically playing with the lives of imprisoned men and their relatives," the statement added.

The committee charged Castro reneged on his original offer to release 1,214 prisoners for 500 tractors. Castro later upped the ante, the committee said, demanding \$28 million worth of heavy-duty equipment or 1,000 small tractors.

"It was our hope to bring freedom to the prisoners and to put

Hope Abandoned for Two

3 Trapped As Old Mine Caves In on 8

PETROS, Tenn. (AP) — Men dug through a debris-choked coal mine shaft high on the face of a mountain today in an agonizing effort to reach three trapped miners.

"Get me out," pleaded one of them — Herly Carroll, 18 — from beneath the rubble more than

nine hours after the old mine caved in on eight miners Friday an hour before they were to start a two-week vacation.

Federal Mine Inspector Steve Bukovich said there was no hope of finding Charles Seiver, 23, and Charlie Kennedy, 28, alive.

A doctor used a hacksaw to amputate the arm of Robert Woods, 19, who was pinned between the rocks and a coal car. He was taken to an Oak Ridge hospital in serious condition.

Woods' father, Claude Woods, 47, suffered a fractured pelvis. The other three miners escaped serious injury.

The mine, 2,300 feet up on the face of Fork Mountain in the Cumberland Mountains of east Tennessee, had been closed several years. The miners were taking out coal pillars and shoring up the mine, preparatory to reconditioning it for the Fork Mountain Mining Co.

"It happened all at once," said Billy Rose, 54. "When we heard the noise we all started running and I passed one boy. And the rocks caught me. As soon as the rocks stopped falling the other fellows came back to help us out."

The caved-in shale covered an area about 100 feet long, 30 feet wide and 8 feet deep about 400 feet from the mine entrance, which is reached by an incline railway.

Only three or four rescue workers, using hand tools, could get in the shaft at one time.

As the rescue operation continued through the night, lights burned in every house in the mountain village of Fork Mountain. Relatives and friends clustered in small groups at the foot of the mountain. There was an air of expectation each time the lights of a rescue man could be seen starting down the incline railway, followed by disappointment when he brought no news of the trapped men.

The mine is about 40 miles northwest of Knoxville.

Avoids Show Of Military Preparations

Quick Bolstering Of West's Forces Foreseen, However

WASHINGTON (AP) — The United States today struck a "firm but not belligerent" note in the growing crisis over Berlin, avoiding any show of military preparations.

In the background, U.S. British, French and West German diplomats sought agreement on how best to meet the new threat raised by Soviet Premier Khrushchev.

Coming away from a conference with President Kennedy and top level officials Friday, Secretary of Defense Robert S. McNamara told newsmen there are no plans at this time to strengthen the 5,000-man U.S. garrison in Berlin or to increase its firepower.

No Immediate Plans

McNamara also said "We have no immediate plans for increasing the forces in Europe," adding:

"I don't mean we won't. I simply mean we don't have any plans at the moment for doing so in the near future."

As a general statement, McNamara declared, "We are taking a firm, but I believe not a belligerent attitude in supporting our position in Berlin and the rights and freedoms of the people living in Western Berlin."

Saying "I do not want to make inflammatory remarks," the Pentagon chief took form issue with Russian claims that "the Soviet Union's power is in excess of ours."

Reporters saw significance in McNamara's use of qualifying terms such as "at this time" and "immediate" in saying there are no plans to bolster U.S. armed might in Europe.

Sources here and in London reported the Atlantic Alliance's conventional forces in Europe are likely to be reinforced quietly.

The main U.S. defense bulwark in Europe comprises five battle-ready Army divisions, three of them infantry and two armored. They are deployed in West Germany, close to the Iron Curtain. Air Force fighters and bombers also are arrayed within striking distance of the Berlin area.

In the light of talk about possible build-ups in Europe, there also could be significance in McNamara's disclosure that he "may find it necessary to visit

First National Hikes Interest Rate

The First National Bank announced today that, effective July 1, its interest rate paid to savings passbook depositors will be increased from 2 to 3 per cent.

It will mark the second rate increase on savings by the First National in four years.

The rate on savings passbook accounts was increased 100 per cent in January, 1957, when it was raised to two per cent from the one per cent that had prevailed in Salem for many years.

In pointing out that First National is the only Salem bank again making an increase in its interest rate, President L. H. Colley said, "Continuing successful business and earnings at First National have enabled us to pass on to our savers, benefits in the form of the higher interest rate. The 3 per cent rate is the highest interest rate that an insured bank can legally pay."

Legislators Eye End of Session

One More Work Week Lies Ahead

COLUMBUS, Ohio (AP) — A long week lies ahead for Ohio's 175 state legislators, but at the end of it is sunshine—the end of working sessions that began a half-year ago.

They may still be in session a week from today in order to finish the job. And hitches could force working sessions to overlap another week. But the end is in sight.

The Senate wound up the 25th workweek of this session Friday, passing all nine bills on its calendar.

Technically the House was in session to receive messages from the upper chamber, but only the officers and a few members hung around. Most went home Thursday.

Toward the end of the two-hour Senate floor session, senators began to look longly toward the door. Eleven seats were empty when the final bill was passed, 27-0.

That bill lets local health boards require vaccination of dogs against rabies. The 1959 legislature gave State Health Director (Dr.) Ralph E. Dwork power to set up dog quarantine and insist on vaccination if rabies became prevalent. But the attorney general said that meant local boards no longer had authority to do so.

The bill passed Friday — it already has House approval—gives health boards the needed authority.

Senators agreed 26-8 to define an historical motor vehicle as one built before Jan. 1, 1927. Present law says such a vehicle is more than 35 years old. An attempt to amend, defining historical vehicles as those more than 40 years old, failed.

Owners of such cars, as long as they do not use them for everyday transportation, pay a \$10 license fee. It's good as long as they own the vehicle. There has been a yearly influx of applicants as more cars have 35th "birthdays," and Sen. Edward H. Dell, D-Butler, said a cutoff year will limit this.

The house passed the bill 2 1/2 months ago.

Despite protests that a Columbus fire department emergency squad is located only a few hundred yards from the Statehouse

2 Crossings Here Blocked 25 Minutes

A defect in the carriage of a railroad car caused two crossings here to be blocked for a period of about 25 minutes and backed up long streams of traffic before police could reroute the vehicles over another street this morning.

The westbound freight train blocked the W. State St. and W. Pershing St. crossings after trainmen discovered a "hot journal" in one of the boxcars at about 7:25 a.m.

Police, who arrived on the scene shortly afterward, said the train resumed motion at 7:45 after the defective boxcar was uncoupled and shunted onto a siding. Meanwhile, they rerouted traffic over Wilson St.

Recently, another railroad car failure resulted in the blocking of all the city crossings except that on the Salem-Lisbon Road for an extended period.

Confident Living

By Dr. NORMAN VINCENT PEALE

Cure For A Gloomy Outlook

I called at a hospital to see a young woman who had been quite ill. With her was her husband, a man in his thirties. The patient, sitting up in bed and obviously on the mend, seemed very cheerful. But the husband was one of the gloomiest men I ever met.

I scarcely had time to ask the wife how she was feeling before he started telling me how badly life was treating him. And he remarked: "On top of all my other troubles Ellen's getting sick was the last straw." It was almost as though he were blaming her for this extra complication.

"Don't you think she is doing fine?" I asked.

"I don't know," he answered glumly.

His wife spoke up: "Well, I'll tell you: I'm going to be out of here soon and better than ever." Smiling at me, she added gently: "Tom gets depressed too easily."

MY CONCERN was shifting rapidly in Tom's direction. While Ellen was the one officially sick, she at least was now recovering. But he, without having any ailment that you go to bed with, was really a sick man. He was suffering from a gloomy outlook. "You give me the impression," I said, "that there is nothing you can say about your life that isn't pretty bad."

"You said it," he agreed. "You could go through my situation with a fine-toothed comb and not find much of anything that looks good."

"Well," I said, "lets see about that. Let's try an experiment." I took a sheet of paper, drew a line down the middle to make two columns and headed one side BAD and the other GOOD.

"NOW," I CONTINUED, "let's first list the bad things. Tell me everything that's on the dark side." So he proceeded to enumerate problems, obstacles, gripes, headaches, disappointments—rattling them off without hesitation. Showed he had practiced them. The BAD column filled up in no time flat. "O.K." I said, "Now let's put down the good things in this other column."

"What are they?" he demanded. "You tell me."

"Well," I asked, "Did you have a good lunch today?"

"Yeah, it was all right . . . what's that got to do with it?"

"Plenty," I replied. "Let's put that down as Item One under GOOD. Did you have any bad after-effects?"

"No, of course not."

"All right. Item Number Two: Digestion O. K. Now, lets see. You can walk, can't you?"

He fixed me with a disapproving stare. "Now you're being silly."

"No. Some people can't, you know. So . . . I'll write down: Item Three: Can walk." I continued writing a number of similar things in the GOOD column. Ellen's eyes were twinkling with amusement.

Presently Tom, in a reflective voice, admitted, "You know, I never thought of all those things." Then his wife did something very interesting. She said, "Let me have that paper." She studied it a moment, running her eyes down the lists of things BAD and GOOD. Then, taking the pencil, she wrote in big letters at the bottom of the GOOD column: "ALL THIS PLUS GOD."

I AM GLAD TO REPORT that Tom caught on. Two or three months after our encounter at the hospital, this young couple came to my church one Sunday for morning services and lingered afterwards to speak to me. Tom, beaming with good spirits and good will, gave me a hearty handshake and declared: "I'm getting on top of that negativism—thanks to God and to Ellen." God and a good wife—what a combination! He was on the way to a cure for gloomy outlook.

90 Lutheran Men Attend Rally Here

Over 90 men were in attendance when the 16 Lutheran congregations of northern Columbiana and southern Mahoning counties met Wednesday at Holy Trinity Lutheran Church.

The meeting opened with the group singing, "Softly and Tenderly Jesus Is Calling," led by William Hiltbrand, with Ruth Hoch as accompanist. The scripture was read by Walter Black and the prayer by Charles Youtz.

Holy Trinity Church choir directed by Ruth Zeller sang "Moments with the Master." Joyce Whinnery played a flute solo, "Sousvair," with Karen Greenisen as accompanist.

The guest speaker, Dr. Peter R. Cibula, spoke on "The Problems of Aging." He said the "The family unit is important to an aging person, that government economic support for the aged will not solve all the problems of aging and that each person should prepare himself for the re-adjustments necessary in old age."

Secretary of NoCoSoma Lutheran Men, Ward Zeller, presided for the roll call. The next meeting will be held Aug. 8 at Greenford Lutheran Church. The Lutheran men of Greenford will be hosts at a corn roast.

The host committee at Holy Trinity for the recent meeting was Olin Muntz, chairman, John Kehrer Sr., Ray Stockton, Edward Thomas, Raymond Knight, William Paxton and Richard Thomas.

West, Reds Wage Fight Over Seat In U.N. Council

UNITED NATIONS, N.Y. (AP) — A bitter floor battle between the Communists and the West loomed anew today over a disputed Security Council seat claimed by the east Europeans.

Communist Romania and the pro-Western Philippines have both announced their candidacy for the two-year seat now held by Turkey.

Diplomats predicted the contest may wind up in a deadlock when the new 99-nation General Assembly ballots this fall to fill the vacancy.

With a two-thirds majority of those voting needed to elect a nonpermanent member to the 11-nation council it could end in a standoff—as has happened in two previous elections—with the two candidates splitting the term between them.

The so-called east-European seat has been the object of an East-West tug-of-war ever since the assembly held its first session in London in 1946.

Rev. Sweeney to Take Columbiana Pastorate

COLUMBIANA — Rev. George Sweeney of Barberton is expected to be assigned to the Columbiana Methodist Church, succeeding the Rev. William Longworth, whose transfer to the First Methodist Church at Salem is expected to be announced at the Methodist Lakeside Conference over the weekend.

Rev. Longworth came to Columbiana from East Liverpool 13 years ago.

The local congregations will have a farewell reception for Rev. Longworth and his family Thursday evening at the church dining room. Mrs. Van Redpath is chairman of arrangements.

Rev. Sweeney, his wife, three children, and Mrs. Sweeney's mother are expected to arrive here before July 2, when he will deliver his first sermon.

This Sunday, William Longworth, who is considering the ministry, will take his father's place in the pulpit to speak on "What Is God Saying?"

DR. W. L. LEHMAN submitted his resignation to the School Board Wednesday evening.

Dr. Lehman, who has been on the board since 1958, has accepted a position at a Veterans Administration hospital in Florida as a staff dentist. He will report to duty about July 15. He came to Columbiana about 8 years ago.

Mr. and Mrs. William J. Longshore Jr. and family of Naples, Fla., will arrive Sunday for a two-week vacation with Mr. and Mrs. William B. Longshore.

Remedial classes are being held at Dixon School and at the High School. About 26 second and third graders are taking instruction from Mrs. Karen Meek in reading and arithmetic.

About 35 fourth, fifth, and sixth, and junior high pupils are taking remedial reading and arithmetic from Arno Holderread.

There is no charge to parents for the six week remedial course, which is financed by the Board of Education.

Granges

30 ATTEND MEETING
Wayne Township Grange met Thursday night at Wayne Local School, with 30 attending.

Mr. and Mrs. Jack Poznel, county deputies, were present. Poznel inspected the work of the subordinate grange while Mrs. Poznel inspected the juvenile grange.

The business and program were in conjunction with the dairy theme.

July 13 is the date of the next meeting and it is hoped that it can be held in grange hall, which is undergoing repairs received during a recent storm.

CLASS WON'T DISMISS TEACHER — Little David Howard and his Memphis, Tenn., classmates did not want too let their former teacher Bobby Jean Coke go. The trouble was that she was no longer their "Miss Coke"—she was married that morning to Dean O'Farrell. Pictured above, David sits on the hood of the car and refuses to move. Others from his class form a blockade, trying to keep her just a little longer.

Leetonia Church Class Plans Family Night Dinner Monday

LEETONIA — A family Night dinner, sponsored by the Leetonia Lutheran Church, will be held at the church Monday evening at 6:30, with the Deborah Class as special guests.

The program will include pictures and a talk by the Rev. William Knoderer of Oesterlen Home for Children, Springfield.

Committee in charge is Mrs. John Rose, Mrs. Culver Stewart, and Mrs. Arthur Spaholt. Devotions will be by Mrs. John Mayernick.

"A Planned Program" will be the message by the Rev. T. P. Laughner at the 10:45 a.m. worship service Sunday at the Lutheran Church.

THE F.O.E. AUXILIARY will hold its regular meeting in the Eagles Hall Monday evening. A sack lunch will be featured.

Mr. and Mrs. Merle Huffnagle have received word from St. Thomas Hospital School of Nursing of Akron that their daughter, Patricia, received the highest grade of her class for the first nine months as a student nurse.

Miss Huffnagle received her nurses cap at a ceremony held in the hospital last Sunday.

The Columbiana County Normal class of 1921 will hold its annual reunion at the home of Mr. and Mrs. William Morris in Youngstown on Sunday.

Intermediate MYF of the Methodist Church met at the church Thursday evening with 10 members present. Joe Hollenshead led in devotions. Patty Reed will have the devotions for the next meeting and Bill Hall and Joe Hollenshead are on the lunch committee.

THE O.S.I. will hold its last meeting for the summer Sunday at 2:30 p.m. in the lodge room. The next regular meeting will be in September.

Mrs. Lawrence Duke and Mrs. David Patterson, kindergarten teachers in the Leetonia Exempted School District, were guests of honor of the Kindergarten Mothers Club when they held their annual dinner at Grady's Restaurant Wednesday.

Judy Snyder and Karen Miller, accompanied by their teacher, Miss Carol Debnar, attended a workshop at Ohio University last week.

Waiting For Something to Turn Up

If the next step in the nuclear testing issue is going to be resumption of tests, which now seems probable, the next step in U.S. rationalization about testing might very well be like this:

In view of the inability of negotiators to get anywhere with Russia on banning tests, it looks like the best bet is to tell the Russians the next move is up to them.

This looks like a likely place to shift from the defensive to the offensive and make it clear that henceforth the United States has no intention of apologizing for possession of atomic secrets and capabilities.

Having beaten all its rivals to the A-bomb and the H-bomb, the United States now proposes to beat them to the next one, which is going to be something called a neutron flux bomb. And if that one turns out to be a thumping success it proposes to be "just and modest" with whatever comes next.

IN SO DOING, the United States will be mindful of hazards but no longer will be psychopathic about them. Its fissionists disagree about the extent of the hazards anyway. In all probability, it has been panicked into believing some things that either are untrue or only fractionally true.

But if the choice lies between getting played for a sucker by Russia and Red China, or risking contamination of the atmosphere, the latter is an automatic choice.

It is not the United States, after all, that will poison the atmosphere exclusively. The British and French are experimenting with atomic fission, besides the Russians, and no one doubts the Red Chinese will be along with their version eventually, to say nothing of the clever Japanese, who probably will

figure out a way to make nuclear explosions cheaper and better than anyone else, if they have enough time to pull their resources together.

Eventually, the atmosphere will be so bad no one will be able to stay alive in it or everybody will be so anxious to stay alive they won't stand for any more exploding of this most expensive of all forms of fireworks.

But the initiative shouldn't come from the United States the next time. Wherever it does come from, the source of the initiative should be referred to Russia, which has set a historic precedent by turning down every proposal to keep control of the atomic menace. And if it were to turn out that Russia, itself, wanted to talk about a nuclear test ban, that would be fine. The United States could then say what needs so much to be said to the recalcitrant Russians some day:

"WE HAVE NOTED your memorandum on the danger of atomic fallout with interest. There may be something in what you say. At this particular time, we are not in a position to act on your recommendation that we cease and desist immediately. But we are taking the matter under advisement in the near future, as soon as our vice president in charge of advising returns from a trip to the moon. In the meantime, please don't call us. We may call you, if we have something to report."

In brief, there must come a day when Russia will want the United States to do something if there ever is an end to the day when the United States keeps asking Russia to do everything and keeps getting turned down cold.

Man With a Sense of Plotting

American Telephone & Telegraph Co. estimates the damage done to its microwave towers and a relay station in the West at \$80,000. Automatic equipment minimized damage to communications when the towers were dynamited late in May.

But extensive damage has been done to a state of mind that made it possible for such valuable installations to be left unguarded. Even if they had been guarded, they would have been easy targets for saboteurs. And it now appears that sabotage was the motive.

The explosions showed how easily sabotage could be committed.

The FBI has received from Mexican police two men apparently involved in a plot to blow up these installations to call attention to their ideas for overthrowing the government. Bernard Brou, 51, claims to be the leader.

All he needed to do was get his hands on enough money to buy a small arsenal and the required explosives. He might never have been found if he had not called at-

tention to himself by displaying more guns than would be found normally on the boat he was on off the Mexican Coast. But it must be remembered in this connection that he wanted to call attention to himself. That was his purpose.

In a thousand ways, Americans are the beneficiaries of a singular lack of concern for their national security. They like it the way it is. But this is a society made to order for saboteurs and provocateurs, wolves permitted to approach unguarded sheep. Whether they work for a foreign government, as the Supreme Court has ruled Communists do, or for some organization of their own creation, they can prey on the United States at will.

Americans do not want to go on guard against each other. But they are insisting that they must be given protection against persons who have shown evidence of wanting to prey on them. Brou, it is reported, had sent out 19,000 letters tipping his hand. Wouldn't that be evidence of something more sinister than plans for a strawberry festival?

Something That Was Worthwhile

When things seem to be going to pot a little faster and a lot less needlessly than usual, there's a reassuring line of news about mankind's water supply to fall back on.

The latest news comes from Freeport, Texas, where demand for fresh water is a problem. Meanwhile, though, there is unlimited salt water in the Gulf of Mexico. A new salt water conversion plant is adjusting the supply of fresh water to the demand in Freeport by taking the salt out of salt water. Residents are now getting Gulf water mixed into the Freeport water supply.

President Eisenhower said it when he was in the White House, President Kennedy has said it, countless editorialists have said it and determined scientists are doing something about it: Converting sea water could be the one great and remembered

contribution of our time.

It might be the principal thing the Christian era would be remembered for. Man's progress has been measured in the long view by his discovery of fire, the wheel, knowledge of his anatomy and, in more recent times, a grasp of physical laws.

Except in rarely favored places, men never have had enough to eat. And in vast areas of the earth, absence of potable water has been a fixed curse. In Freeport and a few other places the potentially big news of the 20th century is being made—the discovery of a way to turn salt water from the limitless oceans into fresh water for men's survival.

When all the names and places where bad news happened have been forgotten, that news happened have been forgotten, that discovery will be remembered.

Our own honorary degree winners for 1961 follows:

Aristotle Whipsaw: Outraged by grinning politicians who jack up assessments, pile on every type of tax, vote to run you through the pressure cooker and laugh off your protests, you staged a one-man parade bearing a banner "Throw the bums out!" It was impolite and ungentlemanly, but a wonderful idea.

Hilary Pottle: You have won your place among capable Americans. You consistently managed to get your auto between parking meters without ripping fenders off the car ahead or behind. Accept the degree Master of Infinite Patience and have a glass of beer as you leave.

Maxwell Bluge: Although a TV biggy at annual conventions pledging less violence on screen, you cried out "Everybody knows this is the bunk" and refused to vote favorably. It is possible you had been drinking but it makes you a man of considerable honesty. We crown you Doctor of Originality and will you stay for crabmeat salad?

Boswell Crunch: You did not praise the 'appeal' "Don't ask what your country can do for you, but rather what you can do for your country," and immediately turn in your 1959 sedan for a new model, order a new swimming pool and buy a racing stable. Name your degree and stick around for the frankfurter roast.

Buckingham Zilch: A building contractor who never made a policy of saving 60 cents in nails on a \$20,000 house, always put the roof on firmly and installed walls thicker than cigarette paper, you qualified as contractor of the year. (You also provided a dry cellar.) We crown you Doctor of Hon-

esty, admitting the possibility you are just crazy.

GENE LITTLER, winner of U.S. Golf Open, was runner up seven years ago, and says failure to be close ever since, is due to experimenting with his game, constantly trying new strokes. Finally got back to his original style and won.

Like Russian Roulette But No Empty Chambers

Inside Labor By Victor Riesel

A political flying squad of labor strategists has just "swung around the circle," completing a series of two-night stands. They plan to raise more money not less, for politics in 1961 than in any other off year, despite the Supreme Court decision on union funds and politics.

Victor Riesel: A C T U A L L Y what the high bench said was that unions now must return part of the dues to those members who say they don't want their money

used for political action, or for support of a particular party. That's all.

The Supreme Court decision will not take American labor out of politics or the Democratic party. Fact is that, after a series of 17 two-day regional conferences, labor's national political administrative high command believes the unions are the backbone of the Democratic party in many states.

Labor must step up its political action, it was decided, because the Republicans now are organizing actually more strenuously than their rivals.

SOME, on Capitol Hill, love to

tell the labor people that politics is the art of compromise. Judging from the fashion in which this art is practiced, the labor leaders add that politics also is the art of raising money for a campaign — or there are no compromises.

Therefore, at a closed session in March, just before the laborite political strategists hit the high road, the Administrative Committee of the Committee on Political Education (COPE), AFL-CIO, decided to raise \$3 million for off-year politicking.

They hit on this figure at this off-the-record conference by assessing each union an amount equal to a dollar for 25 per cent of the total membership. Officially there are 12½ million AFL-CIO dues payers.

THE COPE LEADERS said specifically that:

"In the event that any national or international (union) does not succeed in raising its quota in voluntary dollars, it shall be called on to meet the balance of its quota in educational funds."

"Educational funds," almost always come out of the regular union treasuries. Actually they are not to be used in federal campaigns — that is, for president or Congress. But this regulation has no more stopped laborite political action than middle age has immobilized Archie Moore.

Actually, the new Supreme Court decision says that political action is as natural to unions as licking a dues stamp.

There are no figures yet on Cope's collection.

Whatever part of the \$3 million is raised will be used this year for beefing up local political machinery from coast to coast, for the drive to elect labor-backed candidates ranging from boards of supervisors to mayors.

THE COPE flying squadron, which includes the top research director, educational chief, and something new called the registration director, reported back home that the Democratic party had slipped.

The report said that John Kennedy would win a national poll today but that there would be heavy Democratic congressional losses. Therefore, the local machines had to be strengthened from the ground up.

These 17 regional political action parleys started last March. They wound up early this month. To them came Maine paper workers at one end of the country, and at the other bungalow builders from Hawaii.

The conferences were held in Seattle — to which came the Alaskan labor-politicos — and in Las Vegas, and wound up in Billings, Mont., and Sioux Falls, S. D. This year COPE did not overlook such districts as Rochester, Minn. and many a community in which labor never before rated a chance to win.

This is the story you'll be reading the morning after the next Election Day. Labor not only is going round the clock politically, it's going round the year for the first time.

Game Or Gamble

Shooting War Unlikely Over Berlin Issue

Artificiality over the Berlin issue prevails on both sides. When Nikita Khrushchev dresses himself up in a soldier's suit of the rank of lieutenant-general and makes a speech full of hints of war, Secretary of State Rusk calls it "sabre-rattling," which it probably is.

Similarly, when the West carries out a military demonstration by its troops in Berlin that's called a routine, "alert," the Soviets know this is done for effect, too.

Basically, neither side really believes that the other is going to war as a consequence of the Berlin issue. But the Soviet premier knows that, if he signs a peace treaty with East Germany, the initiative afterward in a military action will have to come from the Western Allies.

The mere signing of a treaty between the Soviet Union and East Germany's so-called republic isn't an act of war or a threat of war but if the East German government, at the behest of Moscow, starts interfering some day with the routes of access to West Berlin, military force could be used by the Western Allies to protect the transportation of any supplies or the movements of their forces to and from the city.

So a huge bluffing match is going on. Each side wants to impress the other that it means business. President Kennedy comes back from his talks with the Soviet premier in Vienna and uses the word "somber."

The briefings here to the press are characterized by words that convey a feeling of gravity and deep concern but Secretary Rusk then tells his news conference that, while Khrushchev's latest speech is a "keen disappointment," he would hardly regard the Communist utterance as the most serious threat since World War II.

Somehow the idea that any shooting war will come of it all seems at this moment to be somewhat illusory. There isn't the mobilization for war on either side that would naturally precede the kind of crisis being envisaged in so many press dispatches and in television commentaries today.

THE REAL DEBATE is in the court of world opinion. The Soviet premier knows this and is trying to make his proposed program with respect to Berlin seem a part of an effort merely to bring about a "reunification" of Germany — something he really doesn't want.

What he does want is to embarrass the West and divert attention from other areas of the world where the Communists are infiltrating.

The Western Allies, on the other hand, feel firmly grounded in their contention that the Berlin issue involves a matter of good faith and the honoring of agreements made when World War II came to an end.

Questions Overpass, Costs

The West State St. overpass which is currently being considered for the city brings to mind some questions which, for the benefit of the local citizens, should be answered publicly.

The cost to the City of Salem for this project seems to be hidden in a welter of facts and figures of other participating agencies. All that is spoken of at the present time is the loan of \$45,000 from the federal agency which is to be used for the studying and planning phase. This money is to be used only for the survey, study and planning stages and not in the actual construction. In addition to this money, there will be approximately \$64,000 which represents the city's share to be applied to the actual construction of the project.

Where is this money to be obtained? At the April 4 meeting of City Council, the Mayor intimated that the money could be appropriated from the General Funds. This would be based on the money derived from the City Income Tax Ordinance which was

Evidently the Soviet premier is well aware of the double role played by the Communists in that war. His latest speech was made on the occasion of the 20th anniversary of Hitler's attack on the Soviets—June 22, 1941—after the Communists had given him military assistance for the first 11 months of World War II.

The Soviets—as Hitler's ally—thus helped to protect the Nazi armies from attacks which could otherwise have kept them very busy on a front in Eastern Europe.

As it was, the Nazi dictator was given a free hand to overrun Holland and Belgium and to attack France and Great Britain in Western Europe.

France could not have been conquered if there had been an eastern front to give battle to Hitler's armies.

In fact, World War II might never have occurred if the Communist government in Moscow had not double-crossed Britain and France and made an alliance with Hitler just a few weeks before he attacked Poland in September 1939.

PREMIER KHRUSHCHEV, apparently aware of this weak spot in Communist history, tried in his speech to cover up and excuse the 1939 alliance of the Soviet Union with Hitler. The Soviet dictator now says:

"It was the perfidious policy of the ruling circles of Britain and France that compelled us to conclude a non-aggression pact with Germany in August 1939."

But the published documents giving the details of the conversations between the British and French diplomats and the Soviet envoys—including the notorious Molotov—give the lie to the Khrushchev claims.

The tragic truth is that the Kremlin thought that, by staying out of the conflict, it could profit by the defeat of Britain and France and that Hitler would be taken care of later when Germany had been weakened by a lengthy war.

Instead, Hitler, after conquering the western section of the European continent as he held Britain at bay, deliberately attacked the Soviets. The West was not enthusiastic about helping the Communists but had no other choice as the common objective then was to beat Hitler.

Even during those war days the devious and treacherous behavior of the Communist regime in Moscow was the cause of constant suspicion.

THESE SUSPICIONS were later borne out by the way the Soviets refused again and again to honor their wartime agreements. They now are trying in the controversy over Berlin to welch once more on their written pledges given to the very allies who saved Russia from destruction.

Only in the court of public opinion can the guilt of the Communists be established for they themselves are atheists who do not believe in morality or in honoring any pledges they may have given. To them the end justifies the means.

passed over the Mayor's veto.

Can the General Fund withstand an expenditure of this kind at this time? With the assistance of the Income Tax money the General Fund will barely avoid a deficit at the end of the year. The City Income Tax Ordinance which was passed on a one-year basis could cease to exist at any point by the issue being defeated at the polls, or failure to renew by the City Council and is an unpredictable source of revenue to obligate the city for an extended period.

The actual consideration of the city's funds for participation in this project has not been given proper attention or publicity. We feel that if the Mayor is making arrangements for this planning loan and exacting promises of participation from the railroad and state that there should be a statement regarding Salem's participation and the anticipated source of revenue made to the public. These subjects have been discussed in City Council on two occasions but nothing has been said to tell people of the plans which might be made.

Matter of Fact

Want to try an Alaskan rebounding mat? Eskimos would not be surprised that people everywhere are enjoying the fad. They have for years. Few Eskimos ever swam in the frigid waters but they hopped over the ice cakes to spear seal and walrus. They developed their balance and coordination by a game where they were tossed up in the air from a walrus hide blanket stretched by their friends.

HOW MANY CANDLES?

Do you count the candles on your birthday cake? Why bother? Once you're past sweet sixteen, it doesn't matter how many candles you're entitled to. What counts is what you're doing with those years.

The years that are past have burned themselves out. Perhaps they have been all you've wanted them to be—but, if you're like most of us, maybe you could have made them a little better.

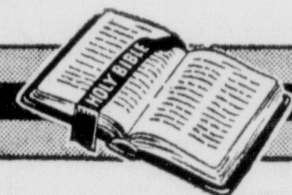

One of God's greatest gifts is the marvelous fact that it's never too late to begin again.

Birthdays remind us of the passing of time, of a new life. Celebrate your birthday by giving. Give something of yourself, by going to your church and taking part in its activities, especially those that help others. Next year, the added candle on your cake will burn with a special brightness!

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Injunction Appears Only U.S. Recourse to End Ship Strike

WASHINGTON (AP)—Resort to a court injunction appeared today as the government's only recourse to end the nine-day maritime strike.

President Kennedy was due to confer today with Secretary of Labor Arthur J. Goldberg on the increasingly grave shipping tie-ups.

Unions have turned Goldberg down cold on his proposal for a 60-day strike truce to let government factfinders study the dispute issues—including a demand for bargaining rights on American-owned foreign flag vessels—and come up with a settlement formula.

Although shipping operators ac-

cepted the Goldberg plan the union turn-downs seemed to doom it.

The labor secretary, a union attorney who masterminded the 1956 steel strike before he joined Kennedy's Cabinet, could come up with alternate settlement proposals. But negotiations in New York are almost hopelessly deadlocked and mounting shipping losses soon will compel the administration to consider invoking the Taft-Hartley law emergency provisions allowing an 80-day court injunction in such situations.

This is reportedly distasteful both to Kennedy, who voted against Taft-Hartley while in Congress, and to Goldberg, with his labor union background. Both feel an injunction would stop the strike but not the dispute, which could develop into another and perhaps worse strike later on.

Gov. William F. Quinn of Hawaii Friday night urged the President to invoke the Taft-Hartley law to prevent emergency conditions in the island state.

Even when the Taft-Hartley emergency provisions are invoked it takes a week or so before a strike-ending court injunction can be obtained. The required legal steps include notification to invoke the nation's health or safety is in peril.

This is generally regarded as legal rigamarole, but it does provide time for Goldberg, in full charge of the situation for Kennedy, to maneuver behind scenes to try to break the stalemate.

The core of the problem is a rivalry among the unions, with presidents Paul Hall of the Seafarers and Joseph Curran of the National Maritime Union, each trying to come out with the fastest settlement. Four other unions involved have divided between the two camps.

The ship owners, having in the past given a better deal either to Hall or Curran, are afraid of being whipsawed by the rivals this time. On top of all this the foreign flag bargaining rights issue involves U.S. relations with some of the Caribbean republics.

NATO headquarters to discuss certain NATO questions this summer. That trip, he said, "is not a firm project at the present time."

McNamara had scheduled his news conference before Kennedy summoned members of the National Security Council and key Democratic Senate leaders to a huddle on the new Soviet drive to force the West out of Berlin.

To reporters who sought to pry out some information on that huddle, the defense secretary said "I am not at liberty to discuss" the subjects covered at the White House meeting.

Shirreffs, going south on Rt. 62, was struck by an auto driven by Mary W. Eckler, 68, of Alliance, who went through a stop sign, patrolmen said.

The Alliance driver was cited by the patrol for failure to stop for a stop sign.

An auto driven by Dr. James R. Milligan, 38, of 227 N. Broadway struck the rear of a vehicle operated by Larry Pyers, 21, of Alliance on Rt. 62, a half mile west of Salem at 12 noon.

Milligan was cited for failure to stop in the assured clear distance, the Patrol said.

Deaths, Funerals

COLUMBIANA—Oscar L. Leonard, 74, of W. Park Ave. died at 2 a.m. today in his home after a 10-week illness.

Born in Sterling, Pa., April 20, 1887, he was a son of Mr. and Mrs. James Leonard.

He was employed with F. C. Russell Co. until his retirement. He was a member of the Methodist Church.

He was married to Sarah Richards on May 30, 1908. She died on Aug. 31, 1960.

Survivors are two daughters, Mrs. Boyd Reynolds of West Point and Mrs. Nellie Sheppard of Columbiana; two sons, James and Roy of Columbiana; two brothers, Charles of Massillon and Raymond of Leetonia; 11 grandchildren and 13 great-grandchildren.

Service will be Monday at 2 p.m. at the Warrick Funeral Home with the Rev. W. S. Longworth officiating.

Friends may call Sunday evening at the funeral home.

FATHER SUCCUMBS

WINONA — William and Reber Heacock of Winona have received word of the death of their father, Ralph Heacock of Millville, Pa., who died Thursday. Services will be held Monday in Millville.

Methodist Changes Due This Weekend

Announcement is expected to be made at the Lakeside Methodist Conference tomorrow of ministerial assignments which will send Rev. William Snowball of Salem to Windermere Church in East Cleveland and bring Rev. William Longworth of Columbiana to the Salem church.

Succeeding Rev. Longworth at Columbiana will be Rev. George Sweeney of Barborton, according to unofficial word received by church leaders.

Rev. Longworth has been pastor at the Columbiana Church for the past 13 years, having previously been at East Liverpool. The Longworths have five children, John 21, and William, 20, who are in college, Mary Lou, 17; James, 15, and Della, 13.

Rev. Snowball has been pastor of the Salem church for five years. He came here from Akron and previously was at Leetonia.

Overpass

The area is listed by the state as a major thoroughfare, with an above average accident rate and requiring excessive maintenance.

State figures show the project to include 0.35 mile of Rt. 62, beginning 0.23 mile east of the Salem west corporation line and ending 1.32 miles west of the Salem east corporation line.

Mayor Cranmer received final paperwork Friday from the state highway department for inclusion in an emergency ordinance to be considered by City Council at a special meeting Tuesday night. The ordinance is being put together by City Solicitor Scott McCorkill.

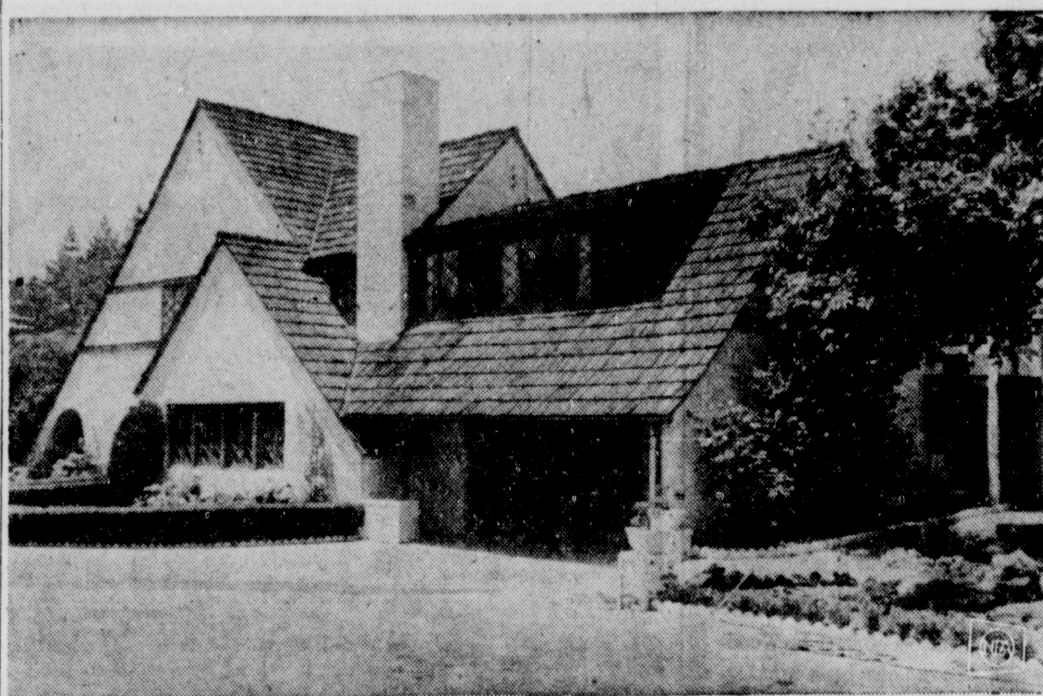

The ordinance is the last required paperwork to get the federal loan application to the HHFA in Chicago. It has been indicated it will take only 30 days to get funds released for preliminary engineering.

The city's estimated share of \$65,000 in the project is expected to be financed by revenue from the city's General Fund, Mayor Cranmer has repeatedly announced. He has said the money could be taken from the fund over a five or six-year period to decrease the debt gradually.

Matter of Fact

At this time of year homeowners are busy with their lawnmowers. Some day this may not be necessary. Biologists, working with the hormone gibberellin, think it won't be long before they can control the growth of plants. Gibberellin's hormone that affects stem growth. Almost mowless lawns will be possible when an "antigibberellin" is found.

Benjamin Franklin was still making discoveries at the age of 79. That's when he discovered a talent for sleeping while afloat. On a visit to England he stopped off at a salt water hot bath. Floating on his back, to his amazement he slept nearly an hour without sinking or turning over. Ben's delighted comment: "Water is the easiest bed that can be."

RESIDENT NIXON — Former Vice President Richard M. Nixon and his family will live in this furnished home until their own home is constructed. The house was rented from movie producer Walter Lang.

Schuller

(Continued from Page One)

Cranmer stated he would like the money to come from income tax money for a period of 5 years at the rate of \$10,000 per year. Under Receiving of Visitors "Mrs. Dorothy McKibbin asked Mayor Cranmer if he expects to take the money out of tax money in one year or over a period of 5 years. Mayor Cranmer stated 5 years."

Recalls Council Statements

Schuller also said that at the regular Council meeting June 20 I made these remarks after the mayor spoke about the overpass: "I would like to say a few words about the overpass. I want to make it clear that there is nothing political in my remarks. When I found out Mel Rackoff was willing to come to Salem to talk about this I called a meeting at the Lape Hotel of people from different organizations in Salem."

"I was not at all optimistic about our chances then, and I'm still a little dubious today. I'm glad the matter has progressed as far as it has. On April 4 you (Mayor Cranmer) told this Council you would like to have \$10,000 a year of income tax money set aside for five years. For some reason or other this was not printed by the papers. This was the chance to tell people how we were going to pay the city's share and perhaps get some reaction from them."

"I feel this is a good time to make up a committee composed of representatives from the various organizations in Salem to work with us on every phase of this project. This whole thing will need to be sold to the public, and now that the city's share has been increased to \$64,000 it is more important than ever to do this. This committee could help sell the idea in two ways, one by letting people know how the project is going to be paid for, and the other by letting people know what is being done with some of the income tax money."

The Council president queried today: "Why is this information not given to those who must pay the cost? Since this can very well be one of the biggest and most important projects that has been undertaken in Salem for some time, doesn't the newspaper feel that these matters, which were discussed at public meetings, be included in the descriptions of the proceedings?"

"With reference to your editorial of June 22, you indicate that Council is considering committing the general fund money to this project. Up to this date no consideration at all has been given to the thought of using general fund money for any portion of it. In fact, except for the two occasions mentioned above, no discussion of the method of payment has taken place."

Laos Princes Hold Talk on Control Unit

ZURICH, Switzerland (AP) —

The three feuding princes of Laos called a meeting today to try for some agreement on the disputed international control commission designed to guard neutrality for their war-torn country.

Powers and duties of the commission are the most controversial issue facing the Geneva conference on Laos.

The Russians have submitted proposals envisaging truce teams subject to Communist veto. The West demands a commission with powers to act independently by majority rule.

In the communique issued Thursday at the end of their four-day meeting here the princes—pro-Western Premier Boun Oum, pro-Communist Pathet Lao rebel chief Souphanouvong and his self-styled neutralist ally, Souvanna Phouma—made no mention of the control commission.

Cambodian Prince Norodom Sihanouk, who worked to bring the warring factions together in Zurich, said he had persuaded them to meet again today.

He urged an effort to come up with joint proposals that could be presented to the 14-nation conference in Geneva.

He also announced he had persuaded Boun Oum to end his seven-week boycott of the conference and send a delegation to its sessions after they resume Monday.

A Boun Oum aid stressed, however, the delegation would not represent the Boun Oum government but only the political groups backing it.

Boun Oum's decision will make little difference to the conference, which has been marking time until the three princes can produce a coalition government to send a unified delegation to Geneva to say what Laos wants.

The princes plan to meet in Laos to discuss the make-up of a coalition government. No date for that meeting has been announced.

Conference sources indicated that if the princes fail to agree quickly on a government, the conference may adjourn until they do.

Thoughts

But seek the welfare of the city where I have sent you into exile, and pray to the Lord on its behalf, for in its welfare you will find your welfare.—Jeremiah 29:7.

Prayer is a powerful thing; for God has bound and tied himself thereunto.—Martin Luther.

Legislators

(Continued from Page One)

and that a 'health program' treating everything from headaches to hangnails might grow from it, the Senate agreed 24-10 to set up a first aid station.

The facility would be located in the Statehouse (if the house and governor go along). It would be under supervision of Dr. Dwork, who would determine staff. Two persons were fatally stricken in the state Capitol earlier this year.

Sharp debate over proposed cuts in Ohio State University Hospital's 1961 - 63 appropriation preceded passage, 23-10, of a House - approved bill exempting licensed nurses, technicians and therapists at the hospital from Civil Service classification.

The idea is to increase salaries and benefits so the OSU hospital can compete for professional skill with other hospitals.

Frank W. King, D-Lucas, Senate minority leader, demanded to know where the money would come from "now that the Finance Committee has cut \$400,000 from the two-year budget of the hospital."

Sen. Ross Pepple, R-Allen, fired back that the committee "cut \$400,000 from a bloated budget."

The Senate approved 20-11 and forwarded to the House a bill reducing the number of copies of this session's enactments to be printed from 6,000 to 2,000, and agreed to House-approved measures which would:

1. Allow an extra day if a legal deadline falls on a holiday (30-2). Sen. Donald C. Steiner, R-Stark, said there have been cases where an attorney goes to a distant courthouse to file suit on the final day allowed, only to learn the courthouse is closed for a local holiday.

This caused Sen. Pepple to comment that "county commissioners have taken it upon themselves to close the courthouse on Saturday. I think they have a right to, but I don't think they should. I know they do it in my county."

2. Let mutual (in which every depositor is a voting member) building and loan associations change their constitutions by two-thirds vote of a majority of depositors, either present in person or by proxy (25-4). It has been two-thirds of the total membership, making it almost impossible for large associations to get enough members together to make the change. Sen. Gordon Renner, R-Hamilton said.

3. Let villages of less than 2,000 notify the election board of a legislative decision to combine or separate duties of clerk and treasurer if there is no primary.

4. Relieve township trustees of present restrictions against renting facilities for office space. 27-0.

X15 Plane Sets Mark of 3,690 m.p.h.

EDWARDS AIR FORCE BASE, Calif. (AP)—The X15 rocket plane traveled faster than a mile a second Friday and gave Air Force Maj. Bob White the speediest ride ever achieved in winged flight.

Instruments showed White, a veteran X15 pilot, had guided the sleek craft to 3,690 miles an hour at approximately 100,000 feet above the California desert.

White accomplished this even though cabin pressure had failed, causing his rubber space suit to balloon out and almost immobilize him. A vapor cloud—as yet unexplained—was a further distraction.

"White was five pounds lighter after the 11-minute flight. This was blamed on the pressure of his suit which caused red marks on his body and a red welt on his forehead."

But White said later, "I was never in pain at any time." He reached his top speed after a 75-second burst from the rocket ship's 57,000-pound thrust engine. The effort heated the X15's skin to 750 degrees Fahrenheit and charred its paint.

Russia's Yuri Gagarin and Alan Shepard of the United States are the only men who have exceeded White's speed. And their trips were in rocket capsules, not winged flight.

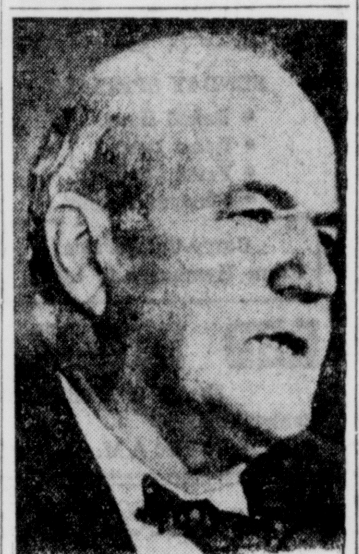

White's speed topped the old X15 mark of 3,307 m.p.h. by pilot Joe Walker last May 25 and was only 310 miles short of the craft's design speed of 4,000 m.p.h.

Two School Board Terms to Expire

Candidates for two terms expiring on the Salem Board of Education will have until Aug. 9 to file with the County Board of Election, the board pointed out today.

Terms expiring are those of Dr. Donald Lease and Stephen A. Gonda. The latter was named by the board a year ago to fill the unexpired term of the late Robert Heddleston. Neither has indicated whether he will seek reelection.

Meanwhile, the Election Board reported three new candidates for other offices in the county at the Nov. 7 general election. Harry D. McConville filed for the East Liverpool School Board; Clifford Weston for Elkrun Township trustee, and James M. Higgins for Washington Township trustee.

RECALLED — The State Department has recalled U.S. nuclear test negotiator Arthur H. Dean from Geneva for "consultations." His return to the deadlocked test ban talks depends on "future developments," the department says.

Mr., Mrs. James Nichols Making Home In Columbiana

The First Christian Church in Lisbon was the setting for the June 16 wedding of Ruth Jeannett McCaughin and James E. Nichols before some 40 relatives and friends.

The bride is the daughter of Mr. and Mrs. Robert McCaughin of E. Washington St., and the bridegroom is the son of Mr. and Mrs. William Nichols of Columbiana.

The double ring ceremony was solemnized at 8 o'clock with Rev.

William Spangler, pastor, officiating.

Gowned in a ballerina-length dress of white nylon chiffon with lace jacket, a headband of white roses and short veil completed her ensemble. A corsage of white pom-poms and carnations topped the white Bible which she carried.

Mrs. Charles Lovelle of East Liverpool, was the matron of honor and her only attendant. She wore a summer green dress. Mr. Lovelle served as the best man.

The bride's mother chose a blue and white summer ensemble with blue accessories and the groom's mother wore a yellow summer outfit with white accessories.

A reception followed at the home of the bride. The bride's table was laid in white and was centered with a three-tiered cake trimmed with pink roses and topped with the traditional bride and groom.

Mrs. Deloris Hammond, Mrs. Ralph Jones, Miss Barbara Boon and Miss Joyce McCulley served for the reception.

Guests were present from Chicago, Youngstown, Brookfield, Salem, East Liverpool, Columbiana, East Fairfield and Lisbon.

Mrs. Nichols is a graduate of David Anderson High School and was employed as a secretary at the Brown and Williams Construction Co. Her husband is a graduate of Fairfield High School, spent four years with the Air Force in the security service and is currently employed as an IBM operator by the Youngstown Board of Education.

The young couple have gone to housekeeping in an apartment in Columbiana.

Indians Trail Tigers by Four Games After 15-7 Loss

Detroit Scores 13 Off Perry, Latman

Both Teams Total 28 Hits, Nine Homers; Grant Opposes Lary Today

CLEVELAND (AP)—Cleveland manager Jimmie Dykes sat sadly in his clubhouse office Friday night and said to newsmen: "Tell me last week that this staff would give up 41 runs in three games and I'd have said you were crazy."

But that's just what has happened to the all-shook-up Indians' pitching corps.

The latest bombing came Friday night when Detroit rocked the Tribe 15-7, scoring 13 times in the first four innings against starter Jim Perry (6-5) and reliever Barry Latman. Bill Bruton led the assault with a pair of home runs, accounting for four runs. Rocky Colavito and rookie Dick McAuliffe also hit round-trippers for the league-leading Tigers.

Tribe Hits Five Homers

The Cleveland hitters did more than their share of slugging—including five solo homers. Chuck Essegian had two homers and one each was whacked by Tito Francona, Bubba Phillips and John Romano. Cleveland had 13 hits and the Tigers 15 in the free-swinging affair.

But the Tigers paid off in the runs department and increased their first place margin to two

games over New York and four over Cleveland.

The slumping Indians now have dropped five straight and eight of their last 10. The Chicago White Sox started the "it's fun to hit" Cleveland pitching" craze Wednesday night with a 15-3, 11-1 double header sweep, knocking out 29 hits and six homers.

Dykes Can't Find Answer

Dykes scratched his head, but couldn't come up with a logical answer. "I have to find out what happened to my pitching," he said. "The only answer I have is that the pitchers are trying to pinpoint the ball with nobody on base. They get behind, walk a few and then have to come in with a fat pitch."

Jim Grant (7-1) tries to shake the Tribe slump today when his mound opponent will be Frank Lary (10-4).

Detroit 153 400 110—15 15 1 Cleveland 110 301 001—7 13 0 Mossi, Fischer (8) and Roarke; Perry, Latman (2). Stigman (4). Locke (8) and Romano. W—Mossie (8-1), L—Perry (5-5). Hot Stove Leagues

Fisher News handed the Elks an 11-4 defeat to topple them out of a first place tie with the idle Electric Furnace nine in Class F action in one of six Hot Stove League games played Friday.

In other encounters played Sekely's dumped Eljer, 5-2 in Class F; CIO 263 pounded Columbiana Enterprise, 13-1 in Class E; National Cleaners outscored Hunt's Ind. Union, 16-11 in Class G; Toar's Wrestlers overwhelmed Stark's Colonial, 18-6 and the Dairy Isle tripped the Jaycees, 10-6 in Class H.

Class F

Fisher News jumped out to a 7-0 lead in the first four innings and went on to easily defeat the Elks.

The Elks now have won six out of eight starts while the Electric Furnace aggregation is 6-1. Fisher News is now 5-1.

Pacing Fisher News to victory was Bob Luttness with three singles in five times to bat. Gary Cosgrove and Jim Milligan each got two hits for the winners.

Jack Rea with a triple and Denny Miller with a double were the big blows in the Elks hitting attack.

Sekely's took a 1-0 lead in the first frame and then had to break a 1-1 deadlock in the fourth inning as they pushed a run across to move into a 2-1 lead which it never lost.

Chuck Joseph was the winning hurler as he gave up four safeties, walked six and fanned 12 Eljer batters.

Joey Rottenborn was the only Eljer player that could hit Joseph as he lined out two doubles and two singles to account for all the Eljer hits. Rottenborn had a perfect night at the plate.

Gary Stoddard absorbed the loss for Eljer but not after giving up three hits, all singles, and striking out eight.

Class E

CIO 2463 picked up its fourth win in five tries as it scored in every inning in its lopsided win over Columbiana Enterprise.

The winners pushed six runs across in the first inning as six hits provided the tallies. Bob King and Dave Thomas each smashed a double in the frame.

Thomas was the winning pitcher as he walked two, gave up four hits and fanned nine.

Ed Schultz took the loss for Columbiana.

The CIO 3816 and Columbiana VFW battle was postponed because of rain.

National Cleaners scored four

runs in both the first and second innings to race to an 8-0 margin and then increased its lead to 11-0 before Hunt's got rolling.

Hunt's made a good effort to overtake the Cleaners nine by tallying seven runs in the fourth inning but the big lead was too much to overcome.

Bob Hall banged out three singles to lead the National Cleaners attack. Tony DeCrown added two hits for the winners.

Rick Liber got credit for the win, striking out seven and Scott Koenreich got the loss.

Terry Davis and Ray Lambert both smashed two singles to pace the Hunt's attack.

Undeclared Toar's Wrestlers racked up its third win while Stark's suffered its third loss without a victory.

Toar's and Stark's both scored four runs in the first inning but Toar's made a run away of the contest by scoring in every inning thereafter. Ten Stark errors helped to aid the Toar victory.

Jack Detwiler had a homer and Youtz two to pace the Toar attack. Paxson connected for a double for the winners.

Dave Paxson received the win after relieving Detwiler in the first frame. Kent Smith took the loss for Stark's.

Dairy Isle handed the Jaycees its third straight loss without a win as it collected five runs in the first to take a 5-0 lead and never was headed.

The Dairy Isle, now 2-1, scored in every inning but the third in coasting to its triumph.

Art Bowen received the loss for the Jaycees but he limited the winners to four hits, all singles. Two Jaycee errors, seven walks by Bowen and three Dairy Isle batters hit by the pitcher proved to be the Jaycees' downfall.

Pacing the eight-hit Jaycee attack were Bowen and Bud Hiltbrand with two hits each.

Floyd Crawford, who collected two hits, received the victory for the Dairy Isle nine.

Jack Nicklaus, Teammate In Title Match

LAFAYETTE, Ind. (AP) —

Favored Jack Nicklaus today matched a fine collection of golf shots with his Ohio State teammate, fierce competitor Mike Podolski, in the second one-school championship match in 64 years of the national collegiate tourney.

Podolski is a 22-year-old graduate and Nicklaus, 21, has another year of college.

But Nicklaus, 1959 National Amateur champion and low amateur in the U.S. Open the last two years, says if he doesn't win today he will never own the collegiate crown. He plans to concentrate next year on such classics as the Masters and British Open. He prefers medal play.

Nicklaus missed the 1959 NCAA meet while playing with the U.S. Walker Cup team. Last year he was upset in the third round by Steve Smith of Stanford.

The only other one-school final in NCAA golf history was in 1951 when Tom Nieporte of Ohio State defeated John Johnson of Ohio State 4 and 3 at Olympian Field in Chicago.

Twins Blank Yanks; Orioles, Chisox Win

By The Associated Press

The Detroit Tigers hit four home runs and whipped Cleveland 15-7 Friday night, handing the third place Indians a fifth straight defeat while building a two-game lead in the American League pennant race. Minnesota, operating under new manager Sam Mele, stopped second place New York

4-0 on the six-hit pitching of Camilo Pascual and Harmon Killebrew's four runs batted in.

Boston beat Kansas City and bonus beauty Lew Krausse 5-4, Baltimore defeated the Los Angeles 8-6 and the Chicago White Sox got past Washington 4-3 for their 14th victory in 15 games.

While the Tigers were packing away their eighth victory in 10 games, the Yankees' winning streak ended at three. Pascual (5-9), who had lost six in a row, walked one, struck out eight and held home run leader Roger Maris hitless. Killebrew had three of the Twins' nine hits including his 20th home run, a two-run shot off loser Bob Turley (3-4).

Krausse (1-1), the 125,000 bonus right-hander who beat Los Angeles 4-0 with a three-hitter a week ago, ran his shutout string through 15 innings and blanked the Red Sox on two hits until Gary Geiger unloaded a three-run homer in the seventh. The rookie allowed three-hits in his seven frames. He gave up eight walks, but struck out seven and twice worked out of bases-loaded jams.

Pete Runnels' two-run homer, off reliever Jerry Walker, put it away for Boston in the eighth, giving the victory to Gene Conley (3-5).

The White Sox won their seventh in a row on consecutive doubles by Al Smith and Jim Landis in the eighth inning off loser Joe McClain (6-6). Reliever Warren Hacker saved the decision for Ray Herbert (6-6) by getting Billy Klaus to pop up with the tying run on third in the ninth. It was Washington's seventh straight defeat.

Triandos Hits Two-Run Homer

A two-run homer by Gus Triandos in the fifth inning nailed it for the Orioles, who blew a 4-0 lead. Jim Gentile, winning pitcher Steve Barber (8-6) and Jackie Brandt also homered for Baltimore. Steve Biko got off a sole drive, capping a five-run third inning, for the Angels. Ron Kline (1-5) was the loser in relief.

Don January, Palmer Lead Western Open

GRAND RAPIDS, Mich. (AP)—Astride the lead with Texan Don January at the 58th Western Open Golf Tournament's halfway mark, Arnold Palmer looks for a 270 score as the winning total.

He and January whipped windswept, rainy Blytheheld Country Club for the second straight day Friday to go seven under par for 36 holes. They sat atop the tourney field with 135 each. Par for the 6,730-yard course is 36-35-71.

"About 270 should do it—that's a good figure—depending on the weather," said Palmer after his round of 35-35-70. "Warm weather would be a welcome change," added the Pennsylvanian transplanted to Miami, Fla.

The weatherman promised clearing skies for the weekend. About 2,800 persons watched second round action in which 72 pros — and no amateurs — survived the 36-hole cut. Scores of 145 or better were needed to stay in contention. Only 10 sub-par rounds were posted in contrast to the 61 opening the tournament.

'Adult Night' At Pool

Every Monday from 6 to 9 p.m. the Centennial Park Pool is open to adults only. Various activities are held to make the evening enjoyed by all. Tom Butler, pool manager, is in charge of the "Adult Night."

Physical Fitness Program Slated To Begin Monday

A physical fitness program for boys of high school age will get underway Monday at Reilly Field. All sophomore, Junior and senior high school boys are invited to participate in the program.

The program will be held on Monday's, Wednesday's and Friday's from 6:30 to 7:30 p.m. for the remainder of the summer.

Salem High head football coach Blaine Morton will direct the activities that will include weightlifting and various types of exercises.

Morton will be assisted by Bob Miller, Bob Martin, and Mike Guappone, all Salem High assistant football coaches.

Reds Edge Dodgers, Take Three Game Lead in NL; Pirates Lose

By ED WILKS

Associated Press Sports Writer

The Cincinnati Reds, winning nine of their last 10, gained a three-game lead in the National League race by beating the second place Los Angeles Dodgers 5-4 Friday night. A sixth-inning home run by Frank Robinson tied it for the Reds, and they won it in the ninth on a double by Gene Freese and a single by Eddie Kasko.

Third place San Francisco tumbled five games behind with a 10-5 loss at St. Louis, while Philadelphia knocked off fourth place Pittsburgh 12-11. The Chicago Cubs stopped fifth place Milwaukee 5-3.

The Reds came from behind twice with a two-run fourth and a two-run sixth off Dodger starter Don Drysdale. Los Angeles chased starter Jim O'Toole in a three-run sixth triggered by Tommy Davis' homer. Ron Perranoski

(3-2) was the loser after giving up Freese' double in the ninth. Intentional walks to pinch-hitters Jerry Lynch and Dick Gernert followed before Kasko broke it up with his single, off Larry Sherry.

Stan Musial drove in seven runs with two homers, one a grand slam, as the cards handed relief ace Stu Miller his first defeat in seven decisions and tagged the Giants with a fourth straight loss.

Right-hander Craig Anderson won with 3 2-3 innings of three-hit, shutout relief in his first major league game.

The Cubs cut Milwaukee's winning streak at four, breaking a 2-2 tie in the eighth on Bob Will's pinch single and an infield out. Southpaw rookie Jack Curtis (3-2) was the winner, but gave up home runs by Frank Thomas and Hank Aaron and needed relief help from Barney Schultz in the ninth. The loser was lefty Bob Hendler.

Shake-Up Occurs in Robbys Knoll Loop

Pittsburgh Foundry was knocked out of first place in the American Division of the Robbys Knoll Golf League and the First National Bank moved in as a result of the week's matches.

The Foundry trails the Bank aggregation by only a half game and leads Heddleston Drug, who climbed from sixth to third position, by one and a half games. Sebring Log Cabin continued to

hold onto the top spot in the National Division but a shake-up occurred in the next four places. Julian Electric was dropped out of second to fourth as Damascus Lumber moved into the runner-up spot.

Eljer No. 1 fell to fifth position after being tied with Sebring Top-Notch Pizza, who took over third place, by one and a half games.

Bayless Gas of the American Division captured its first victory of the season and now sports a 1-49 record.

Individual low gross scores racked up for the week include, Bob Agan, First National Bank, 36; Gene Dean, First National Bank, 37; Bill Hannay, Heddleston Drug and Dave Shuster, Pittsburgh Foundry, both 38; Curt Linke, Bayless Gas; Hal Keefe, Gottschall Tool & Die, and Sarge Ware, First National Bank all fired 39's.

For the second week in a row the First National Bank team recorded low gross total with a 157, 13 over par.

The league standings are as follows:

Mele Bows In With Win As Twins' Boss

ST PAUL MINNEAPOLIS (AP) Sam Mele bowed in as new manager of the Minnesota Twins Friday night with a 4-0 victory over the New York Yankees.

Mele had assumed the reins of the slump-ridden club only hours before he directed the Twins to their eighth win in their last 35 games.

President Cal Griffith said he was replacing Cookie Lavagetto in order to "pump new life into the club."

Lavagetto received the news with a shrugging "that's baseball for you."

Finley Gets Council To Allow Fireworks

KANSAS CITY (AP) — It took Charles O. Finley just 40 minutes Friday to convince the City Council that his Kansas City Athletics should celebrate home runs with fireworks.

The council recently ordered the A's to explode no aerial bombs after 8 p.m. because residents near the ballpark objected to the racket.

The council rescinded that order today.

Finley, who made his fortune selling insurance, argued that in 1961 it takes color and enthusiasm to sell anything. Fireworks sell baseball, he said.

He told the council he has ordered a \$300,000 trick scoreboard that will be able to laugh at opposing pitchers.

"When we hit a home run," he said, "not only will the scoreboard go into action with fireworks, it will let out the wildest laugh you ever heard."

Winona Squeaks Past Franklin Twp. 1-0

Undefeated Winona blanked Franklin Twp., 1-0, in a real pitchers duel, for its seventh win in United Little League action Friday.

In other games Hanoverton blasted New Alexander, 20-8 and Kensington handed East Rochester a 10-8 defeat.

Pitcher Marty Briceland was the whole show for league-leading Winona as he collected two to the three Winona safeties and stole home in the fourth inning to give the win to Winona. Briceland allowed Franklin Twp. only one hit.

Mike Pierson received the loss for Franklin Twp.

Pacing the Hanoverton victory were Bill Fyck with a triple and a grand slam homer in the third inning; Fritz Zeigler with a homer, and Bill Taylor with a double. Ronnie Leatherberry captured the win and Ricky Engle took the loss. Engle belted a double in a losing cause.

Dale Merriman lashed out two doubles and a single to lead the Kensington attack and Larry Norton added a triple for the winners.

NIRB Delays Decision In Local Plant Case

The National Labor Relations Board is not expected to make an early decision in the case of the former Salem Fabricating & Machine Co., after holding preliminary hearings here this week on a complaint filed by District 26 of the United Steelworkers of America.

Officials of the USA-CIO charged the former Electric Furnace Co. subsidiary with refusal to negotiate in labor disputes, stemming from a stalemate situation at the local plant prior to the fabricating firm's dissolution in August last year.

Any decision in the case will come from NLRB headquarters in Washington, D.C., after all testimony and recommendations of government attorneys is submitted. This is not expected to occur for several months, it was indicated.

The company and union were unable to agree to a new work contract after the old one expired Nov. 14, 1959. Meanwhile, Electric Furnace had its machine work done elsewhere and eventually closed its subsidiary plant.

When Salem Fabricating was founded Jan. 1, 1959, a total of 130 persons was employed in the shop on W. Wilson St.

Dave Baker of San Francisco and Jerry Norton of St. Louis led National Football League players in interceptions last year. Each made 10 and returned the ball 96 yards.

Minnesota's Twins lost 18 of their first 20 games this spring against Detroit, Cleveland and New York.

U.S. Makes Deal To Halt Import of Cuban Molasses

WASHINGTON (AP)—The U.S. government has made a deal to keep millions of dollars from flowing into Fidel Castro's Cuba for molasses.

The Agriculture Department announced Friday it had signed a one-year contract with Publicker Chemical Corp. The terms: Publicker will stop importing Cuban molasses; in turn the Agriculture Department will sell to Publicker at a loss 14 million bushels of corn.

The corn—from low grade surplus stocks—will be used by Publicker as a substitute for the molasses in the production of industrial alcohol and liquor.

The company said it had depended on the molasses to keep some of its operations in production.

"For the period of the contract Publicker is required to suspend all imports of molasses from Cuba," the Agriculture Department said in a statement.

The White House pressed Publicker to accept the agreement by announcing the molasses imports are "not in the public interest" because they provide dollars for Castro's dictatorship.

The announcement made clear that President Kennedy was displeased by the unloading Tuesday of more than 2 million gallons of Cuban molasses at Publicker docks in the port of New Orleans.

Publicker contended its New Orleans plant, which employs 700, would be forced to shut down unless it received raw materials for producing alcohol.

Since the United States halted purchases of Cuban sugar last year, trade between the two countries has been limited, totaling about \$70 million.

White House news secretary Pierre Salinger said on Wednesday that the \$200,000 worth of molasses unloaded Tuesday represented only a small part of the order placed with Cuba. He said the total order amounted to 120 million gallons, valued at \$12 million.

VOTE TO END STRIKE

CLEVELAND (AP)—Drivers for three large potato chip and pretzel companies have voted to accept a three-year contract and end their strike which started May 29. The 135 drivers agreed Friday night to accept the contract, which provides for improved working conditions, paid hospitalization and paid time off for funerals of close relatives. Wages were not an issue for driver-salesmen. The settlement, however, included an hourly pay raise of 30 cents over the three years for over-the-road drivers who are paid on an hourly basis.

The strike was against the DanDee Pretzel & Potato Chip Co. the Frito Co.; and the Salem Potato Chip Co.

SHS Class Of '46 Plans For Reunion

The Class of 1946 of Salem High School will hold its 15-year reunion July 8 at the Salem Golf Club.

A banquet will be served at 6:30 p.m., followed by introductions and a program. Steve Navoyosky's orchestra will provide music for dancing.

The reunion committee consists of Dan E. Smith, Morris Hollinger, Fred Koenreich, Ruth Dales Englert, Jacquie Orr Nedelka, Jackie Troll, Ruth Baltorin Vance, Dean Gordon, Richard Karlis, Walter Ibele and Duane Yeagley.

Reservations should have been made by today with committee-men Hollinger or Koenreich, but later reservations will be accepted. Class members are urged to return the information forms whether they plan to attend or not. All of the 153 graduates have been contacted.

The whereabouts of several people who attended high school with the class are not known, and they include: Nadine Stern, Joanne Smith, Jenny Iskra, Sue Hoffman, Darwin Kintner, Donna Jean Perry, Bryan Owens, George Stenger, Beverly Schuster and Bob Hannay. Anyone knowing their addresses are asked to call Dan Smith or Jacquie Orr Nedelka at ED 7-6535.

Anyone who feels he or she should be included in the class is welcome to attend.

The reunion committee will appreciate receiving any pictures, clippings or mementos pertaining to the class. These items may be given to Jackie Troll at Troll's Jewelry Store or to any member of the committee. The items will be used on a "memory table" and will be returned.
